Defendant Gray Jordan contends that the 21 objections specifically referenced above contain issues of fact and law germane to his own case, and furthermore maintains that the granting of this motion will promote judicial economy and prevent the unnecessary duplication of filings. The government has already responded to the filings in question, relying upon the United States' original responses to the original underlying pretrial motions, [Doc. 186].

The Court has reviewed these motions, and Defendant Gray Jordan's request [**Doc. 184**] to adopt these motions is **GRANTED**, to the extent that it does not require the government to respond with further specificity as to Defendant Gray Jordan.

**IT IS SO ORDERED.**
